

DOMINA 1100 - SOLID TOP

GTF911

GAS, ON GAS OVEN

TECHNICAL DATA:

External dimensions - WxDxH (cm)	90x110x85
Total power (kW)	22

ADDITIONAL TECHNICAL DATA:

Oven dimensions - WxDxH (cm)	54x94x30
Gas oven (kW)	10
Weight (kg)	210

The worktop is in 2 mm AISI 304 stainless steel with pressed channel for liquid collection. The cooking plate with a surface area of 50 dm² is in cast iron (10 mm thickness) with a removable central ring and it is powered by a 12 kW cast iron burner, placed under the central ring, with piezo-electric ignition and thermostatic control. The hotplate surface reaches 500 °C in the center and decreases toward the edges up to approximately 200 °C, ensuring excellent isothermal zones for cooking over an indirect flame. Versions with GN 2/1 pass through gas static oven.
