

COMPACT, PORTABLE WORK TABLE FOR BREADING  
AND PREPARING PRODUCT FOR FRYING

# Model BT-24M

Simplicity in design, quality that is affordable - BKI's breading tables are the perfect companion for BKI's full line of fryers. The tables are compact and portable for breading and preparing product for frying. Our breading system is designed to produce a consistent product look while reducing breading costs. An easily operated hand sifter separates the dough balls promoting consistency in the sifted breading. Our equipment is constructed of top quality stainless steel for years of dependable operation and backed by over 50 years of foodservice manufacturing excellence.
