Dry Aging Cabinet
DATA SHEET 500
model: painted black metal
DATA SHEET 500

Length (mm): 665
Depth (mm): 745
Height (mm): 1800
Pallet size (mm): 750x780x2200

Net weight (kg): 150
Packed unit weight (kg): 160

Litres capacity: 500 LT
Production capacity (kg): min 50 - max 100
Electrical power: 550 W
Electrical connection: 230V - 50-60 Hz
Operating temperature: 0°c +4°C

Model:
- **KME500PVB** -1 glass door
  Made inside in AISI 304 stainless steel, outside in painted black metal,
  with inox steel back panel

- Insulated with cyclopentane
- Evaporator outside the room
- Adjustable inox steel feet
- Key hole on front
- Internal gearing with AISI 304 inox steel rails with roll over protection
- Reversible self-closing doors with gasket
- Ethernet exit for remote control
- Door opening alarm
- Heating resistance

KME500PVB

COSTUMIZED SINGLE BLOCK REFRIGERATION GROUP

- Energy Efficiency Class 5 (Tropicalised)
- Gas R290 = GWP 3 (Global Warming potential = GWP)
  (R134a – GWP 1430) - (R404 – GWP 3922)
- Assembled using low environmental impact material,
  such as EPS and PP
- High efficiency unit with HC-R290 natural cooling gas
- Warm gas smart defrosting system which starts
  automatically only when necessary
- High efficiency version with low consumption motor fans
  and compressors
- Effective internal air circulation thanks to high efficiency ventilation system
- Autonomous evaporation of condensed water which starts automatically when condensation is formed
- Built-in evaporator to keep more free space inside the chamber
- Big sized condenser and evaporator
- Forced ventilation
- Fast Service System: simplified maintenance and assistance (do not require specialized personnel, simple and quick operations)
- Self-cleaning wire condenser, no maintenance needed.
- Refrigerating power 406W - Electrical power 228W

STANDARD EQUIPMENT:

- Test center function
- Tropicalised and customized climate class 5 refrigerant group
  with Gas R290
- Capacitive display
- White self-igniting led lights
- Horizontal and vertical air flow «patented»
- Dehumidification
- Humidity and temperature probe

- Heating resistance for "strong" drying
- Sanitizer "Oxigenklima»
- 6 preset and customizable recipes
- Possibility to set 8 phases per each recipe
- Automatic evaporation of evaporator condensation
