

▶ Designed for convection oven AT90 and AT120

▶ Safe connection for stacking

- ✓ 2 convection ovens AT90 on top of each other
- ✓ 2 convection ovens AT120 on top of each other

Space-saving and practical – the connecting frame enables the safe stacking of 2 AT90 or AT120 convection ovens. Screwed into place, slipping is not possible. This saves valuable space in the kitchen, and in petrol stations, kiosks or bakeries.
